DGIF Announces PolicyBridge™ Email Archiving and Surveillance Solution for Schools

August 16, 2007, Westminster, CO—Digital Info Security Company (Stock Symbol: DGIF.PK), a leading provider of email solutions for compliance, announced today that it is customizing its PolicyBridge(TM) Email Archiving and Surveillance solution to help schools comply with increasing regulations.

DGIF's PolicyBridge(TM) solution helps schools to abide by recent amendments to the Federal Rules of Civil Procedure, which require organizations to archive and make accessible all employee e-mails and other electronic communication for purposes of e-discovery.

Additionally, PolicyBridge(TM) provides schools with a technology tool for responding to requests for electronic information under the Freedom of Information Act and under open meeting and public record laws. PolicyBridge(TM) can also be used as a security tool for schools to notify administrators of potential threats and as a human resources tool to flag possible inappropriate conduct or sexual harassment.

PolicyBridge(TM) uses a customizable lexicon to scan all messages for key words and phrases, and it flags messages with questionable content for review. The solution features advanced search functions for e-mails and attachments and it securely stores all data in DGIF's state-of-the-art Data Center.

DGIF is promoting its ability to provide for different needs in the education industry by making available both hosted and hardware solutions for schools. DGIF recently became a featured solution provider on *eSchool News* online, a leading website for K-20 technology decision-makers, to reach the education market.

ABOUT DIGITAL INFO SECURITY COMPANY

DGIF provides Email/IM Archiving and Compliance, Spam Filtering/Virus Protection, Encryption, Remote Backup, Colocation, BlackBerry Hosting and Website Hosting.

DGIF purchased an email archiving company in April of 2005 and purchased PolicyBridge(TM) software in May of 2007. DGIF's management has many years of experience in internet security, SEC, HIPAA and other regulatory compliance solutions.
