

## **Westminster, Colorado Data Center Availability**

**Digital Info Security Company  
11030 Circle Point Road, Suite 100  
Westminster, Colorado 80020**

**January 14, 2008**

## 1. Facility

**Location**– Digital Info Security Company is located in the Circle Point Office Complex, 11030 Circle Point Road, Westminster, Colorado approximately 7 miles from downtown Denver and 15 miles from Boulder Colorado on Highway 36. The complex was built in 2001.

DISC offices are on the first floor of the south building and offer a separate data center available for colocation or lease. DISC offices include a common lobby area with full kitchen, showers, three state of the art training rooms and two professional conference rooms that are also available for client use.

### Data Center Features

- ▶ Multiple Telecommunications providers with 3 diverse paths to building.
- ▶ Multi GB broad band transport options
- ▶ Liebert UPS power system and backup generator
- ▶ FM-200 Fire Suppression system
- ▶ Raised floor cooling with dual Liebert cooling systems
- ▶ Electronic card key access system - Interior and Exterior surveillance

### Power

- UPS –Liebert dedicated 500 Battery backup system and dedicated 1,800 KW diesel generator with a 2,700 gallon diesel capacity
- Power - Two diverse Liebert power systems:  
Model # PPA100C, Output- 208/120, Amps Max 278, Phase 1 & 3, Hertz 60  
Model # EXC100 - Output Volts 208/120, Amps Max 180, Phase 1 & 3, Hertz 60

### Environment

- Cooling and Humidity - Cooling and humidity controlled by two Liebert Deluxe System 3 (model #DH240G-AAE1) Systems serviced by two diverse power feeds providing N+2 redundancy
- Environment - Set at 70°F (20°C) with 45% humidity and a variation of no more than 4°F

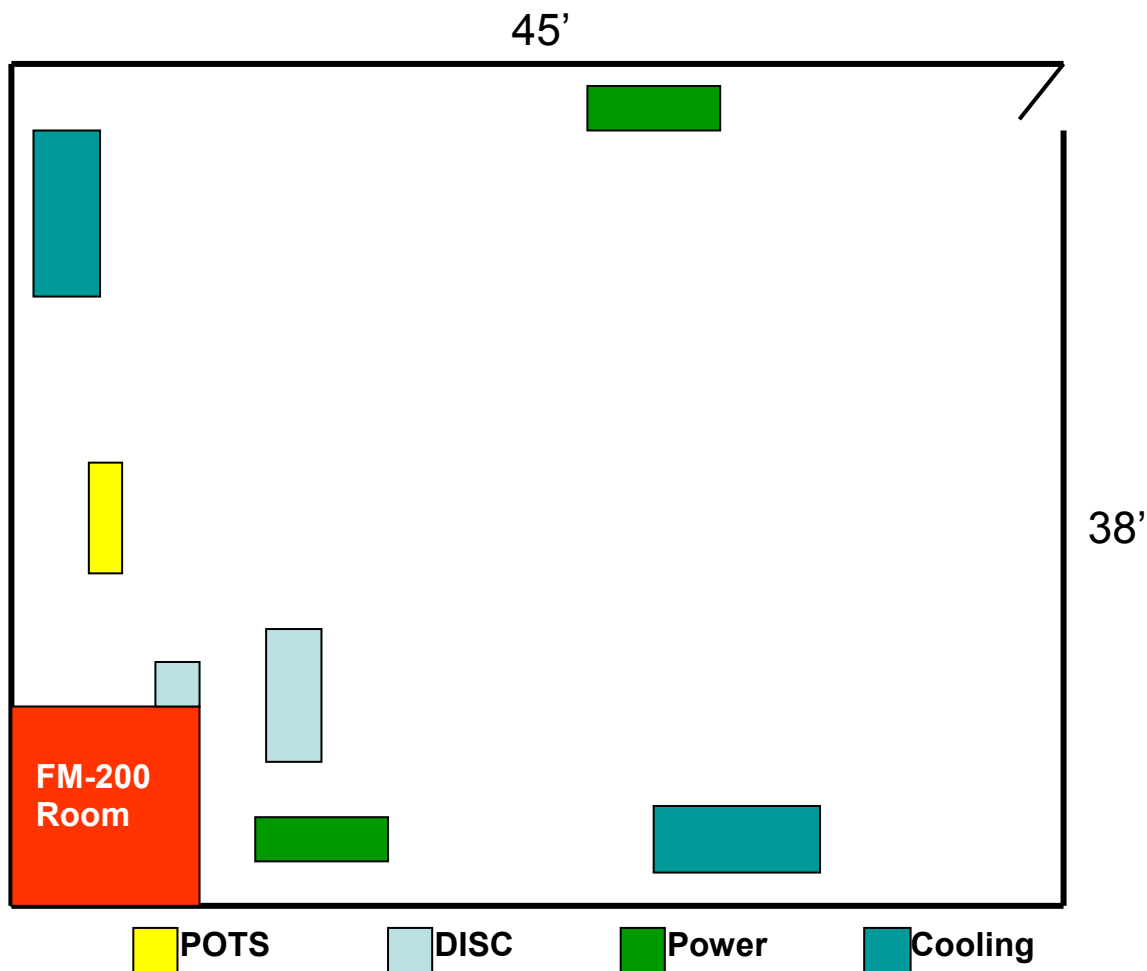

of temperature, or 4% in humidity

## Fire Detection and Suppression

Fire Detection – FM-200 Waterless Fire Protection System from Chemtura, detects and eliminates fire within 10 seconds.

## Space

DISC has a total of 1,600 square feet of raised floor data center and 66 racks available for lease. These 66 racks utilize all of the Data Center space except for the space (two racks) currently occupied by DISC equipment.

## Security

**Physical Security** – There are 3 physical barriers protecting access to the DISC data center. Access is controlled by card key scanner and keyed fire proof door. Digital camera surveillance is also available. Additional security measures can be implemented at client's request.
