

# Hosted Secure Vault Manager

## Protect your data on encrypted removable media devices...

- **Password recovery from anywhere in the world at any time**
- **Data protection for lost devices through dynamic access revocation**
- **Hosted, cost-effective information security solution with Help Desk (U.S. Toll Free #)**

### SECURE VAULT MANAGER BY DISC

A premier hosted management service for encrypted removable media devices, Secure Vault Manager by Digital Info Security Company (DISC) ensures that you will always have access to your protected data while others will not.

Secure Vault Manager is available in two versions:

**Consumer/Small Business:** protects against lost or forgotten passwords

**Enterprise Version:** allows administrators to have full visibility over employee access to confidential information and to remotely manage access to information

### PRODUCTS SUPPORTED BY SECURE VAULT MANAGER

#### ENCRYPTX Product Suite (DAR approved):

**DeviceDefender™** and **SecurFlash®** - provide powerful device control and automatic encryption of USB removable devices including device tracking and enforcement of organizational password policies.

**SecurDataStor®** or **SecurWrap®** - provide secure file and folder level encryption, allowing users to share files through email, on CDs/DVDs, on USB devices or on network drives.
